Dear Public Service Commission Public Service Commission,

Back in December, our state exemplified great leadership in becoming the 44th state to institute net metering. Now SCE&G is taking our state a step backwards by proposing to implement a different policy that will subject me and my fellow South Carolinians to increased taxes.

I support a "no new taxes" approach to solar in South Carolina. That means net metering.

Please help SCE&G get back on the right track.

Sincerely,

David Peterseim
